***EXPECTATIONS***

FF

*We have [Strong Hold] cabinets at work for holding welding supplies and various other equipment. And we have some guys that are very hard on equipment. They could tear up a sledge hammer in a sandbox. But these cabinets have held up like a champ.*

**THEY ARE BADASS!**

**Steve M.

# LEAN SERIES

## *EXPECT MORE FROM YOUR STORAGE*

Don't settle for the flimsy construction and lack of variety you find when looking at the current storage options on the market. The Strong Hold Lean Series is here to set a higher standard for industrial-grade storage. With a wide selection of colors, configurations and an industry-leading warranty, the Lean Series gives you the storage you deserve at the price you want.

**25-YEAR  
WARRANTY**

**QUICK  
LEAD TIMES**

**MADE IN  
AMERICA**

**SHIPPED FULLY  
ASSEMBLED**

### ✓ 14-GAUGE STEEL

Keep your storage safe with high-impact protection. This durable, high-quality steel is thick enough to take on years of abuse in harsh environments.

### ✓ FULLY-WELDED DESIGN

Choose a cabinet that will last. Compared to spot welds or bolted assembly, Strong Hold uses MIG welds to provide a sturdier and longer-lasting construction.

### ✓ HEAVY-DUTY LEAF HINGES

Save your future self the headache. Leaf hinges provide long-lasting support to keep doors working like they should.

### ✓ 3-POINT LOCKING SYSTEM

When closed, these doors latch in three separate spots for increased security. Control access and prevent theft by securing your cabinet using a standard padlock.

### ✓ EXTREME LOAD CAPACITIES

With shelf capacities up to 1900 lbs. each, drawer capacities up to 400 lbs. each, bin capacities up to 60 lbs. each, and a 150 lbs. capacity per door, no inch of storage space will be wasted.

### ✓ RAISED LEG DESIGN

The legs provide enough space below the cabinet to be easily moved using a pallet jack, and to protect the bottom from spills or other corrosive hazards.

### ✓ FLOOR MOUNT CAPABLE

To safely secure your cabinet and prevent tipping, all corners come with pre-cut holes to easily bolt your cabinet to the ground.

### ✓ FULLY CUSTOMIZABLE

Customize your cabinet to the exact color, size, or configuration you need to get the job done. Find out more about our custom capabilities on page 9.

# CUSTOM SOLUTIONS

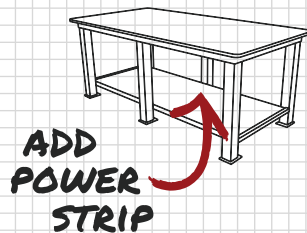

## TAKE YOUR STORAGE TO THE NEXT LEVEL

Still can't find the perfect fit? We'll build you a product that's ready to go the moment it arrives. No assembly, no modifications, no hassle. To save you the headache, we engineer custom solutions that meet your exact specifications. We make storage solutions that work for you, instead of forcing you to make it work.

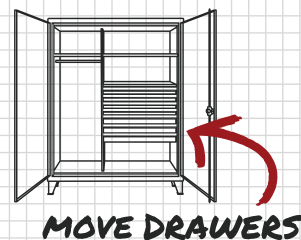

Modify the size of the body, drawers, compartments, etc.

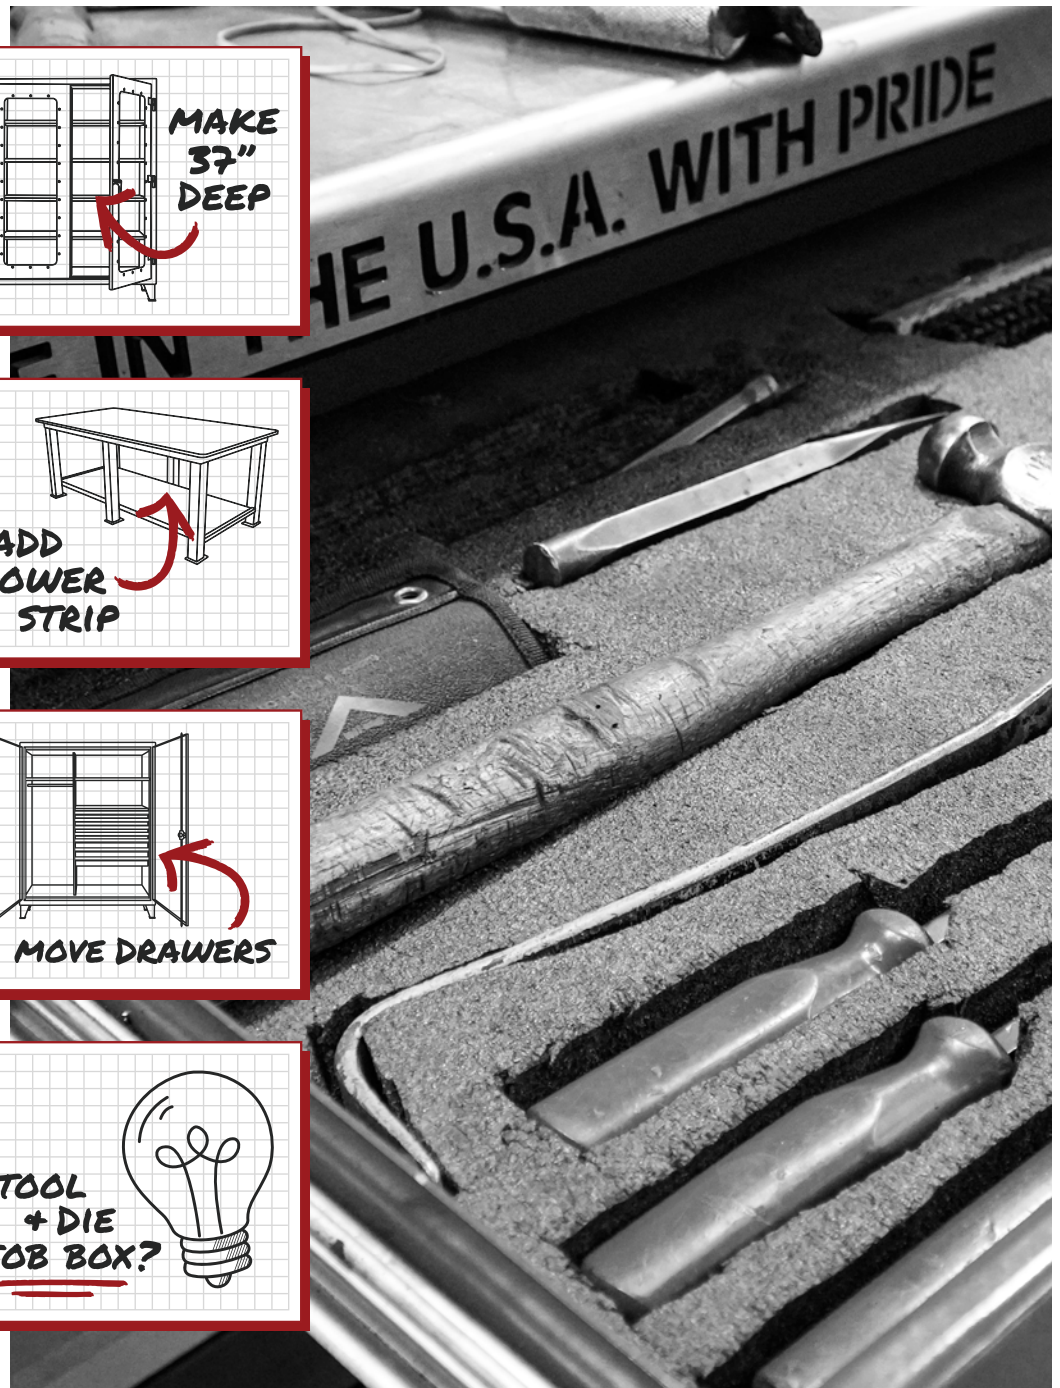

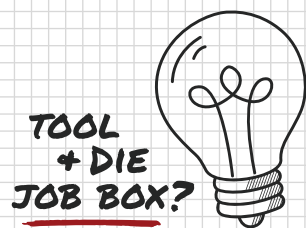

Select additional accessories specific to your needs

Change the layout or configuration for effective storage

Think outside the gray box and create something new
